

RUSTIC KNOTTY ALDER

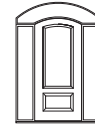

Bruster showcases rustic European design with timeless craftsmanship. Inspired by traditional countryside homes, it features a Knotty Alder fiberglass woodgrain complete with unique knots, enhanced by the Cashew stain that highlights its natural beauty.

Curved lines, carved details, and metal accents like clavos and speakeasy grilles evoke historic architectural charm. More than an entryway, Bruster is a statement piece, blending old-world elegance with modern appeal for those who value rustic aesthetics.
